

Full-stack Developer – Python and JavaScript (m/w/d)

Full-time position in Berlin, Germany or remote

About Noah Labs

For the first time in human history, we have the technology, insights, and data to redefine healthcare. Jointly with patients, medical providers, insurers, and scientists we are enabling the transformation from reactive to proactive healthcare. Our goal is to help physicians deliver world-class care outside the four walls of the hospital or practice. Today, the management of cardiovascular conditions is almost impossible for patients to do alone, and difficult for hospitals and practices to do at scale.

At Noah Labs, our vision is to create software systems that understand, treat, and ultimately prevent cardiovascular diseases. We develop an AI-powered health analytics platform that combines smart biosensors, machine learning software, and a mobile app for patients. Our mission is to enable people to live longer and happier lives despite their cardiac condition.

This is your mission

- **Take over responsibility for a key component of our cloud-based Remote Patient Monitoring stack**
- **Develop core functionalities for our patient and physician-facing system**
- **Implement regulatory requirements guided by our regulatory manager**
- **Work closely and collaboratively with the Noah Labs project management team**
- **Fine-tune and improve digital health solutions used in pilot projects**

From day one, we expect

- **Fluency in English** (C1 or C2)
- 2+ years of work experience or a master's degree in Computer Science
- Proficiency in Python and JavaScript (React and/or React Native)
- Experience using Git, Linux environments, Docker (or similar)
- Strong digital health interest and understanding

You can wow us if you have

- Solid knowledge of German (B2 or C1)
- Experience with biosensor analytics or other health-related applications
- A record of publications in Computer Science and/or Biomedical Computing
- Experience with technical documentation and medical device approval under MDD or MDR

You will thrive at Noah Labs if you are

- **A builder** - you roll up your sleeves and get things done
- **A strong communicator** - you practice open and clear dialogue while listening with fairness
- **An industry expert** - you have strong domain knowledge and are willing to share it with others
- **Ambitious** - you are always quantifying, comparing, and coming up with ways to improve
- **Resilient** - you show adaptability, and you are great at juggling multiple tasks simultaneously

What We Offer

- ♥️ Opportunity to tackle a problem impacting millions
- 🚀 Highly talented and aspirational team
- 💰 Competitive salary incl. stock options
- 🏀 Urban Sports Club membership
- 🏡 Beautiful office in Kreuzberg, Berlin
- 🌱 Opportunity to grow into a management role
- 🍷 Free team drinks on Fridays
